### Frank Pallotta Selected for IndiSoft's Advisory Board

**COLUMBIA, MD., Jan. 25, 2018** – [IndiSoft](http://www.indisoft.us), a technology development firm that specializes in systems for the [financial services industry](#), has appointed Frank Pallotta to its advisory board. Pallotta brings a wealth of experience in capital markets and is an established leader in the mortgage industry.

“We are very excited to add Frank to our advisory board,” said Sanjeev Dahiwadkar, CEO and founder of IndiSoft. “His expertise in capital markets, extensive industry network and deep business knowledge will be of inestimable value to fulfilling our vision and executing our strategy.”

For more than 25 years Pallotta has been a leader in the mortgage industry and currently owns mortgage advisory firm Steel Curtain Capital Group, LLC, which he founded in 2009. He has been instrumental in building and leading some of the largest residential mortgage teams on Wall Street and helped design the industry's first private label rewards program tied to the payment performance of underwater mortgages. The program won TIME Magazine's Top 50 Inventions of 2010 by employing the use of borrower behavior and incentive theory to dramatically reduce mortgage default rates.

Pallotta has had key positions and senior capital markets roles at Morgan Stanley, Credit Suisse and Goldman Sachs & Co. since 1990, leading origination, sourcing, structuring and distribution of loans and securities. He is currently working to build Canada's first multi-lender, aggregation and securitization platform designed to provide additional liquidity and increased distribution to Canada's residential housing market.

He continues to maintain many senior relationships with some of the largest financial and regulatory institutions in Washington, D.C., and across country. Pallotta is a graduate of St. John's University in New York, with a bachelor's degree in finance.

### About IndiSoft LLC

Columbia, Md.-based IndiSoft, LLC develops collaborative technology solutions for the financial services industry.
