ServiceMac Chooses IndiSofts RX Office Compliance for Quality Control

BALTIMORE, Feb. 25, 2019 – ServiceMac, an emerging mortgage sub-servicer for banks, investment firms, mortgage bankers and credit unions, has selected IndiSoft’s RX Office Compliance platform to support its enterprise-level quality assurance and quality control processes.

“As we round out our technology partners to complete our vision of a unique mortgage sub-servicing solution designed for the digital age in mortgage banking, IndiSoft’s RX Compliance platform is critical in addressing the constantly changing regulatory landscape to ensure superior, cost-effective governance,” said Bob Caruso, CEO for ServiceMac.

IndiSoft’s AI-enabled regulatory compliance technology will assist ServiceMac’s adherence to federal, state and investor guidelines, enforcement actions, administrative rulings, court decisions and internal policies and procedures.

Hans Rusli, CEO of IndiSoft LLC, commented, “Working with a new sub-servicing enterprise, led by Bob and his team, is an exciting opportunity for us. ServiceMac is modernizing the mortgage sub-servicing model unburdened by the need to upgrade or convert from a multitude of legacy and end-user systems.”

About ServiceMac

ServiceMac is focused on providing superior technology, products and services for the mortgage industry backed by highly personalized service and support.

Through continuous innovation and acquisition, its offerings are comprised of personalized solutions that span the mortgage continuum and enhance security, customer satisfaction, and profitability.
